

Device for multi-point anchoring.

DESCRIPTION

All attachment points are big enough to allow locking sleeves of most carabiners passing through.

Low profile of the plate makes the connection as short as possible. 1/3

Rounded holes allow direct attachment of ropes or slings to the rigging plate.

C€1019 3/5

Provides plenty of attachment holes.

Helps to organize carabiners at the anchor point.

KEY FEATURES

5/7

provides efficient force distribution at different load directions

Both central attachment points can $accommodate \, up \, to \, 3 \, carabiners.$
